# A MESSAGE FROM OUR 8TH GRADE REBBI

Rabbi Menachem Chaifetz

In this week's פרשה we learn about the פיגול of עבירה - a קרבן eaten after the prescribed time carries a punishment of כרת. This is so only if all of the other steps and processes were done correctly. However, if there was any prior problem with the קרבן this punishment does not apply. Only that which is on the highest level of קדושה can be affected by פיגול due to its elevated and refined nature. Without this, the problem of פיגול is not pronounced. From this we learn a lesson concerning ourselves. Due to our elevated and refined nature we must be extra careful to stay away from things which can spoil us even if they don't seem to make any impression on others. We must appreciate the קדושה within us and guard and protect ourselves accordingly. (R' Yaakov Kaminetsky)
