A MESSAGE FROM OUR MENAHEL

Rabbi Yehuda Brecher

אלה ראשי בית אבותם בני ראובן... (ו.יד.)
ואלה שמות בני לוי (ו.טז.)

When the פסוק mentions the בני ראובן the פסוק says "אלה ראשי בית אבותם" - "these are the heads of their families". However when it talks about the בני לוי the פסוק says "ואלה שמות בני לוי" - "these are the names" of the בני לוי. Why the difference? The שליח הקדוש explains that לוי knew that his family wasn't included in the גזירות of the rest of ישראל. They wouldn't be עבדים or oppressed in מצרים. Even so, he still wanted to be משתתף and share in the צרות. He named his sons names that symbolized the future גלות.

גרים - The בני ישראל were גרים (strangers) in another land.
קתה את לשון מצריים - The בני ישראל blunted their teeth (from the לשון of מצריים).
מרי - The בני ישראל embittered their lives (וימררו את חייהם).

This showed that לוי felt concern and sympathized with the בני ישראל for all their צרות. This is why the תורה stresses "ואלה שמות בני לוי"; these names showed לוי's care and concern for the בני ישראל. With Hashem's help, we should try to have compassion and be concerned about the plight of their Yidden, even if he himself is not directly affected.
